I've compiled the independent regulatory, platform-policy, and Real-Time Assistance (RTA) research report for **Riverline** (not legal advice; analytical inferences and recommendations are marked [Judgement], and points requiring formal legal counsel are listed separately at the end):

Short Answer First: The Three Biggest Risks and How to Handle Them

1. **Israeli Criminal & Civil Gambling Exposure on the "Game Night" Money & "Banker" Ledger (Risk: HIGH)** [Judgement]
    - **Why it happens:** Under Chapter 12 of the Israeli Penal Law, 5737-1977 (Sections 224–235), organizing a "prohibited game" carries up to 3 years' imprisonment (Section 225) and playing carries up to 1 year (Section 226). Although the Supreme Court noted in *obiter dictum* in a foreign-tournament tax appeal (C.A. 476/17 *Rafi Amit v. Assessing Officer Tel Aviv 4*) that professional tournament poker involves skill, lower courts continue to classify cash-game poker as a "prohibited game" unless it meets all three cumulative conditions of the narrow social exemption in Section 230 of the Penal Law. Crucially, Section 233(3)(a) of the Penal Law establishes a statutory presumption that any premises where a prohibited game is played at least twice within six months is an illegal gambling venue ("מקום משחקים אסורים"), and Section 32(a) of the Contracts (General Part) Law, 5733-1973 makes gambling debts civilly unenforceable. Recording fiat buy-ins, rebuys, cash-outs, and "banker" settlements creates a prosecution-ready log of repeated cash games and designates an organizing "banker," while also violating Google Play's Real-Money Gambling Policy against *"companion functionality (for example, functionality that assists with wagering, payouts... or management of participation funds)."* [Judgement]
    - **How to handle it:** Make the planned **Points / Chips-Only Mode** the sole mode of the Game Night tool. Remove all currency symbols (₪, $, €, ₽) and replace terms like *"Buy-in ($)," "Cash-out," "Money Owed,"* and *"Banker"* with unitless scorekeeping terms (*"Points In," "Points Out," "Net Score Differential," "Minimum-Step Chip Reconciliation,"* and *"Host Tally"*). Never include any field for *"Rake," "House Fee,"* or *"Tip,"* never link to payment apps (Bit, PayBox, Venmo, PayPal), and keep Game Night logs strictly local on the user's device. [Judgement]
2. **Online Poker Site Real-Time Assistance (RTA) Bans & App Store "Illegal Gambling Aids" Rejections (Risk: HIGH)** [Judgement]
    - **Why it happens:** Major online poker networks—including PokerStars (Third-Party Tools Policy) and GGPoker (Security & Ecology Policy § 2)—strictly ban keeping any solver, equity calculator, or chart-lookup tool open during play (even on a second device), enforcing this via client process scanning with penalties of **permanent ban and full confiscation of player funds**. Simultaneously, Apple App Store Review Guideline 5.3.4 states that *"Illegal gambling aids, including card counters, are not permitted on the App Store."* Calling a feature **"Live Decision Mode"**—even with warnings—triggers both App Review rejection and RTA classification. [Judgement]
    - **How to handle it:** Drop the name **"Live Decision Mode"** completely and reframe the feature as **"Off-Table Hand Replayer & Scenario Simulator"** or **"Post-Session Spot Lab."** Require full post-hand parameter entry rather than

rapid 1-tap live table lookups, require an Anti-RTA click-through acknowledgement on first launch, and on desktop builds, implement voluntary process detection that pauses solver/chart screens whenever known poker clients (PokerStars.exe, GGnet.exe, 888poker.exe) are running—a compliance measure explicitly acknowledged by PokerStars. [Judgement]

3. **Payment Processor Account Termination, Israeli Amendment 13 Privacy/Consumer Fines, & Russian Roskomnadzor Blocking (Risk: MEDIUM–HIGH)** [Judgement]
    - **Why it happens:** Stripe's Prohibited and Restricted Businesses Policy and PayPal's Acceptable Use Policy prohibit gambling, peer-to-peer money transmission, debt settlement, and (in select jurisdictions) online gambling advisory/prediction tools. In Israel, Amendment 13 to the Protection of Privacy Law, 5741-1981 (in force August 14, 2025) empowers the Privacy Protection Authority (PPA) to levy immediate administrative fines for incomplete Section 11 privacy notices (as seen in the August 2026 *A.D Karting Hutzot* fine), while Sections 13D(c) and 14I of the Israeli Consumer Protection Law mandate a prominent homepage "Cancel Subscription" link and 3-business-day termination. In Russia, Roskomnadzor under Art. 15.1(5)(1)(d) of Federal Law No. 149-FZ and Federal Law No. 244-FZ blocks domains extrajudicially within 24 hours if they appear to facilitate online poker or real-money settlements.
    - **How to handle it:** Position Riverline's paid tier exclusively as an **Educational Game-Theory & Mathematical Strategy Subscription (EdTech SaaS)** with zero gambling/cash-out copy, publish a 5-point Israeli Section 11 / GDPR Art. 13 Privacy Policy and Israeli Section 14I homepage cancellation link before accepting payments, use a Merchant of Record (e.g., Paddle or Lemon Squeezy) or pre-vetted Stripe account, and strip all casino links and currency symbols from the Russian (RU) interface. [Judgement]

Findings Per Question, Risk Levels & Verbatim Official Sources

Question & Scope	Risk Level	Key Findings, Verbatim Rules & Required Actions [Judgement]
Q1. Apple App Store & Google Play	**MEDIUM–HIGH** [Judgement]	• **Apple Rules:** App Store Review Guideline 5.3.3 bars initiating fund transfers or purchasing credits for real-money gaming, and Guideline 5.3.4 bars *"Illegal gambling aids, including card counters."* Under Apple Age Ratings, *Simulated Gambling* is rated **13+ / 18+** on iOS 26+ (**12+ / 17+** on earlier OS), triggers a mandatory **R18+** in Australia (Apple News) and **18+** in France, and **cannot be distributed in South Korea without a GRAC Rating**

Question & Scope	Risk Level	Key Findings, Verbatim Rules & Required Actions [Judgement]
		Classification Number (RCN). • **Google Play Rules:** Google Play's Real-Money Gambling Policy bans *"gambling or real money game... companion functionality (for example, functionality that assists with wagering, payouts... or management of participation funds)."* Using unitless points lets you declare *"no financial features"* on Google Play's Financial Features Declaration.
Q2(a). Israel: Poker Study Tool	**LOW** [Judgement]	• Under Section 224 of the Israeli Penal Law, 5737-1977, a "prohibited game" requires that a person *"may win money, money's worth or a benefit."* Pure mathematical/strategy study with no prizes or cash-out value is lawful, provided you include zero links or affiliate promos for unlicensed gambling sites (Penal Law § 227).
Q2(b). Israel: Home-Game Money Tracker	**HIGH** [Judgement]	• Section 230 of the Penal Law exempts social games only if: *(1) intended for a particular circle of persons, (2) not exceeding amusement/entertainment, and (3) not held in a place of prohibited games.* Because Section 233(3)(a) presumes a venue is an illegal "place of prohibited games" if a prohibited game is held twice in 6 months, and Contracts Law § 32(a) voids gambling debt enforcement, convert the ledger to **unitless points/chips only** and remove "banker" and currency labels.
Q2(c). Israel: Paid Tier & Subscriptions	**MEDIUM** [Judgement]	• **Privacy:** Amendment 13 to the Protection of Privacy Law

Question & Scope	Risk Level	Key Findings, Verbatim Rules & Required Actions [Judgement]
		requires a 5-element Section 11 notice at collection (identifying the "Database Controller / בעל השליטה במאגר מידע" and §§ 13–14 rights) and compliance with the 2017 Information Security Regulations. • **Consumer Law:** Consumer Protection Law §§ 13D(c) & 14I mandate a prominent homepage cancellation link and termination within 3 business days. • **Accessibility & Tax:** IS 5568 exempts sole contractors under ILS 100,000 annual turnover (accessiBe), though an Accessibility Statement is still needed. Commercial "donations" are taxable income in Israel.
Q3. Russia, EU & United States	**HIGH (RU) / MED (EU) / LOW–MED (US)** [Judgement]	• **Russia:** Art. 15.1(5)(1)(d) of Law No. 149-FZ and Law No. 244-FZ empower Roskomnadzor to block gambling-related domains extrajudicially; Law No. 152-FZ Art. 18(5) mandates local data storage for Russian accounts; Law No. 436-FZ requires an 18+ label. • **EU:** ePrivacy Directive 2002/58/EC Art. 5(3) exempts strictly necessary localStorage from consent banners; Directive 2011/83/EU Art. 16(m) requires an express waiver of the 14-day withdrawal right for digital subscriptions; EAA 2019/882 Art. 4(5) exempts microenterprises (<10 staff, ≤€2M turnover). • **US:** UIGEA (12 CFR § 233.2(c)(5)(viii)) exempts non-wagering educational/free play; state home-game laws strictly prohibit taking a **rake**

Question & Scope	Risk Level	Key Findings, Verbatim Rules & Required Actions [Judgement]
		(e.g., NY Penal Law § 225.00; CA Penal Code § 330).
Q4. Online Poker Sites' RTA Rules	**HIGH** (Live Mode) / **LOW** (Study Mode) [Judgement]	• PokerStars' Policy bans GTO solvers, range calculators, and chart lookup aids **whenever the PokerStars client is open** (even on another device). GGPoker's SEP § 2.3 states: *"Referring to charts of any kind during play is strictly prohibited"* (penalties: **PERMANENT BAN, CONFISCATION OF FUNDS**), and SEP § 7.3 bans sharing raw PokerCraft hand histories. Anonymize shared hands (Hero/BTN/BB) and add desktop client process detection.
Q5. Required Docs, Sync & Payments	**LOW–MED** (Free) / **MED–HIGH** (Paid) [Judgement]	• Even at the free, no-analytics stage, provide 7 items: Privacy Policy, Footer Local-Storage Notice (no popup needed under ePrivacy Art. 5(3)), Terms of Use, Open-Source Licences, Study/RTA Disclaimer, Accessibility Statement, and Contact email. • Adding accounts/payments triggers Israeli PPL Amendment 13, GDPR erasure/export rights, Consumer Protection Law § 14I, and Stripe Restricted Business underwriting.
Q6. Age Ratings & Minors	**MEDIUM** [Judgement]	• Enforce a strict **18+ (or 21+ where required by local law)** age gate in Terms of Use and first-launch onboarding. This aligns with Apple's 18+ / R18+ regional ratings, Google Play's 18+ gambling-content rules, Israeli youth-protection standards (Chambers Gaming Law 2025 § 9.4), Russian Law No. 436-FZ (18+), and avoids children's privacy regimes

Question & Scope	Risk Level	Key Findings, Verbatim Rules & Required Actions [Judgement]
		(COPPA / GDPR Art. 8).

"5.3.4 Apps that offer real money gaming (e.g. sports betting, poker, casino games, horse racing) or lotteries must have necessary licensing and permissions in the locations where the App is used, must be geo-restricted to those locations, and must be free on the App Store. Illegal gambling aids, including card counters, are not permitted on the App Store." — Apple App Store Review Guidelines § 5.3.4

"App must not provide gambling or real money game, lottery, or tournament support or companion functionality (for example, functionality that assists with wagering, payouts, sports score/odds/performance tracking, or management of participation funds)..." — Google Play Real-Money Gambling, Games, and Contests Policy

"2.1. RTA is defined as any external assistance which provides users with an unfair advantage over their opponents, influences their decision making in real-time, or allows them to play in a manner they otherwise would not be able to replicate... 2.3. External assistance includes, but is not limited to, software, apps, websites, physical and digital reference materials. Referring to charts of any kind during play is strictly prohibited. 2.4. Potential actions for breaches: PERMANENT BAN, CONFISCATION OF FUNDS." — GGPoker Security & Ecology Policy (SEP § 2)

Three Release Checklists & Exact Disclaimer Wording

1. Before Sharing with Friends (Private Beta / Local Web & Desktop)

- **Convert Game Night to Points / Chips-Only Mode:** Remove currency symbols (₪, $, €, ₽) and rename *"Buy-in / Cash-out / Banker / Money Owed"* to *"Points In / Points Out / Net Score Differential / Host Tally"*. [Judgement]
- **Ensure Zero Rake or Hosting Fee Fields:** Confirm the app never calculates or records a house rake, pot cut, or host tip. [Judgement]
- **Rename "Live Decision Mode":** Rename to *"Off-Table Scenario Simulator"* or *"Hand Replayer"* and require a click-through Anti-RTA Fair-Play banner. [Judgement]
- **Verify 100% Local Storage:** Keep all hand histories and Game Night score logs inside browser localStorage / IndexedDB with zero server database sync. [Judgement]
- **Attach Baseline Disclaimers & Open-Source Notices:** Add the Study-Tool / Anti-RTA / Scorekeeper Disclaimer and third-party open-source license attributions (MIT/Apache-2.0). [Judgement]

2. Before a Public Web & Desktop Release (Free + Optional Paid Tier)

- **Publish All 7 Legal Disclosures:** (1) Privacy Policy, (2) Footer Local-Storage Notice, (3) Terms of Use (18+/21+ age gate, Israeli law & venue), (4) Open-Source Licences, (5) Study-Tool & RTA Disclaimer, (6) Accessibility Statement (IS 5568 / EU EAA), and (7) Contact email. [Judgement]
- **Implement Desktop Process Detection:** Have the desktop app pause solver/chart views when PokerStars, GGPoker, 888poker, or WPN clients are running (PokerStars Prohibited Software Policy). [Judgement]
- **Auto-Anonymize Shared Hands:** Strip player screennames and operator hand IDs

(Hero / BTN / BB) before generating shareable links (GGPoker SEP § 7.3). [Judgement]
- **Sanitize the Russian (RU) Interface:** Display an 18+ badge, remove all links to poker rooms and currency symbols (149-FZ Art. 15.1), and do not store Russian citizens' personal data in foreign cloud databases (152-FZ Art. 18(5)). [Judgement]
- **Before Enabling Accounts or Paid Subscriptions:** Display the 5-point Israeli PPL Section 11 Notice at sign-up, prepare your internal Database Definitions Document (2017 Security Regulations), register tax status in Israel (*Osek Patur / Osek Murshe*), add the prominent homepage **"Cancel Subscription / ביטול עסקה"** link (Consumer Protection Law § 14I), and process payments via a Merchant of Record (Paddle / Lemon Squeezy) or Stripe with clean EdTech descriptions. [Judgement]

3. Before an Apple App Store & Google Play Release

- **Scrub Metadata & Screenshots:** Remove all references to *"Live Decision Aid," "Buy-in ($)," "Cash-out," "Banker,"* or *"IOU"* (Apple § 5.3.4; Google Play Gambling Policy). [Judgement]
- **Configure Regional Exclusions:** If your age-rating questionnaire triggers *Simulated Gambling*, uncheck **South Korea** (unless you obtain a GRAC RCN certificate; Apple Age Ratings; Google Play Korea Rules) and restricted jurisdictions. [Judgement]
- **Submit Google Play Financial Features Declaration:** Declare that Riverline offers no financial features, loans, or money transfers (Google Play Financial Declaration). [Judgement]
- **Enable Native IAP, In-App Account Deletion & UGC Moderation:** Use StoreKit / Google Play Billing for in-app upgrades (Apple § 3.1.1), provide in-app account deletion (Apple § 5.1.1(v)), and add content filtering, "Report Hand," and "Block User" controls for shared hands (Apple § 1.2). [Judgement]

Exact Disclaimer Wording Suggestions (Copy-Paste Ready) [Judgement]

18+ Educational Study Tool Only — No Real-Money Gambling & Strict Fair-Play Policy:

1. **No Gambling or Real-Money Play:** Riverline is an independent mathematical game-theory and strategy study application intended solely for adults aged 18 and older (or 21+ where required by local law). Riverline does not offer, facilitate, or promote real-money gambling, wagering, or prizes of real-world value. No virtual points or chips in Riverline can be purchased, wagered for value, transferred, or redeemed for money or goods.
2. **Prohibition on Real-Time Assistance (RTA):** Riverline is designed strictly for off-table study and post-session hand review. Using strategy charts, equity calculators, or scenario simulators during live or online poker play is strictly prohibited by online poker operators (including PokerStars and GGPoker) and live cardroom rules, and may result in permanent account bans and confiscation of funds. You agree never to use Riverline while any poker client or live game is in progress.
3. **Friendly Scorekeeper Only — No Financial or Debt Enforcement:** The Game Night organiser is a unitless points and chip-count calculator for private, recreational social games where lawful. Riverline does not process payments, hold funds, act as a banker, or verify the legality of any private game. Any score summaries generated by the app are for recreational scorekeeping only and do not create, evidence, or constitute a legally enforceable debt, loan, or financial obligation (including under Section 32 of the Israeli

Contracts Law, 5733-1973). Users are solely responsible for complying with all applicable laws in their jurisdiction (including Section 230 of the Israeli Penal Law, 5737-1977).

(Full Hebrew (HE) and Russian (RU) translations of this disclaimer, plus the exact 5-element Israeli Privacy Law Section 11 Notice and Local-Storage Notice, are included in Section 8.1 of the PDF report above.)

Points Requiring a Lawyer (Listed Separately)

1. **Israeli Criminal & Accomplice Liability Audit of the "Game Night" Organiser:** Formal sign-off by an Israeli criminal/gaming attorney confirming that the Game Night UI and data schema cannot be construed as facilitating or aiding a prohibited game under Sections 31, 225, 228, 230, and 233 of the Israeli Penal Law, 5737-1977.
2. **Israeli Privacy Protection Law (Amendment 13) Compliance Review:** Review by an Israeli privacy lawyer of your Section 11 collection notice, Privacy Policy, internal **Database Definitions Document (מסמך הגדרות מאגר)** under the 2017 Information Security Regulations, and compliance with the *2023 EEA Data Transfer Regulations*.
3. **Israeli Consumer Protection Law & Standard Contracts Law Review:** Verification by an Israeli commercial lawyer of your subscription checkout disclosures (Section 14C), prominent homepage cancellation link (Section 14I), 3-business-day termination mechanics (Section 13D(c)), and Terms of Use under the Standard Contracts Law, 5743-1982.
4. **Israeli Web Accessibility Exemption (IS 5568 / Regulation 35C):** Confirmation by Israeli counsel of your eligibility for the under-ILS 100,000 turnover exemption under Regulation 35 of the Equal Rights for Persons with Disabilities Regulations and review of your Hebrew Accessibility Statement (הצהרת נגישות).
5. **Israeli Tax, VAT & Corporate Entity Structuring:** Consultation with an Israeli tax attorney and CPA (רואה חשבון) before launching the paid/supporter tier to register as *Osek Patur*, *Osek Murshe*, or an Israeli Ltd. company (חברה בע"מ) for personal-liability shielding, and to structure domestic vs. export SaaS VAT properly.
6. **Israeli Payment Services & Financial Supervision Clearance:** Legal review under the *Payment Services Law, 5779-2019* and *Supervision of Financial Services Law, 5776-2016* if you ever reconsider keeping fiat currency balances or settlement routing in the app.
7. **Formal Legal Opinion for Payment Processors / Israeli Banks:** Issuance of a formal attorney opinion letter if required by a payment acquirer (Stripe, Paddle) or an Israeli bank (under Bank of Israel Procedure No. 411) certifying that Riverline is strictly non-gambling educational software.
8. **Russian Digital & Data-Localization Counsel (149-FZ & 152-FZ):** Review by counsel familiar with Russian law if you plan to actively market to Russian residents or permit Russian users to register cloud-synced accounts.
